Sunshine Enterprises proudly presents the new longplayer of the Waxolutionists!

We had to wait, but finally here it is...and it was definitely worth the wait! The world famous Waxolutionists from Vienna present their 5th longplayer "**We Paint Colors**"!

Following the success of their last 12" "**Feet don't fail me**" feat. Dave Ghetto, Hezekiah & Mystic, "**Flashlight**" feat. Hygher Baby, and "Dance with me" feat. Dave Ghetto, Hezekiah & Mystic, the Waxos deliver a full spectrum on their LP.

Whether it's classic rap-tracks, soulful deep affairs, dark detroit inspired tunes, jazz-influenced tracks driven by live-instrumentation or new styled fresh beats... it's all there... and under the magic hands of the Waxolutionists, it just fits together - naturally. They definitely paint colors!

Mainly produced by **DJ Buzz**, the **Bionic Kid** and the **Twintowas** are also responsible for some beats on the album, as well as for many of the live instruments, which create that organic sound we love! You can be sure there are also some fresh electronic beats for you hipster-beatheads out there!

One for the German and Austrian fans out there -- and we know you were waiting for it -- we got the legendary "Freifach Musik" at the album, already part 3! And there's a banger with longtime friends **Manuva** of Total Chaos fame, **Roger** of **Blumentopf** and **Flowin' Immo**! More classic Waxos joints on the jazz side of things are there with "Eos" or "Field Of Wonders". And "Atlas" or "Morning Dew" are the tunes for the beatheads among you!

The Waxolutionists also worked together with a bunch of great MCs, guests & friends; they add the icing to the cake! Find rapper of the moment **Blu** out of Los Angeles on "Steel remains", Detroit legend and half of the duo **Frank n Dank**, **Frank Nitty**, on "On!!!", or the great Rusty Redenbacher of the **Mudkids** on "Take this Job". Outstanding are definitely also the tunes, which already have been released on 12" vinyl: "Dance with me" and "Feet don't fail me", both feature two of Philadelphia's finest, **Hezekiah** & **Dave Ghetto**, plus that girl **Mystic** out of L.A. And Swedens finest **Hygher Baby** aka **Pure P of Up Hygh** fame and singer **Melo**, provide the vocals on the deep "Flashlight"!

Waxos are here to stay! Be part of a future classic!

The Viennese producer and DJ trio - DJ Buzz, The Bionic Kid & DJ Zuzee - expanded the borders of hip-hop and dared to make trips to new musical territories without losing their orientation and spontaneity in their style of production.

Live elements and sample-related production have always been a major part and a dash of turntablism habit has always given their projects its very own special flavour.

After their first 4 albums - [The Smart Blip Experience](#) in 1999, [Plastic People](#) in 2002, [RE:WAX](#) in 2003 and [Counterfight](#) in 2004 - numerous remixes & compilation joints followed. Working, remixing and producing with and for artists like Sofa Surfers, Stereotype, André Heller, Ray Cokes, Dave Ghetto, Mystic, Dj Vadim, Blade, Ty, Lyric L, Killa Kela, Pure P & Melo, Dj Flip and many more, they enjoyed massive airplay on Austrias no.1 independent radio FM4, appearances on the Worldwide Show, Solid Steel Radio, Radio Magnetic, various German shows like BTTB and over all the Austrian Music Award. The sound of the Waxolutionists gained friends all over the world - from Newzealand to Japan along to Mexico.

10 Years of Waxos and far from being tired - they still work busy as bees on their future. Besides numerous soloprojects (DJ Buzz with "The Cosmic War Of The Planets, Bionic Kid with [Circus & 313Radio](#)) they still find time and energy to perform & manage the collective & label [Supercity](#) together with Rapper Manuva.
